PROFESSIONAL SUMMARY

Quality Engineer with over 2.5 years of experience in full-stack testing across web and mobile platforms, including automation strategy, continuous testing (API, regression), and end-to-end quality assurance. Adept at working in Agile environments with cross-functional teams. Experience spans Healthcare, Supply Chain, EdTech, Safety Procurement, Real Estate / Property Management and Financial Services domains. Strong understanding of testing best practices and ecosystem integration to accelerate delivery and ensure high-quality outputs.

TECHNICAL SKILLS

- **Testing Types:** Functional, Black Box, Regression, Smoke, Sanity, Security, Integration, Performance, ETL
- **Tools & Platforms:** Selenium Web-driver, Postman, Cycle, JIRA, HP ALM, PTS, Confluence
- **Development Methodologies:** Agile, Scrum
- **API Testing:** REST API, DOCMAN Connect
- **AI Tools:** TestCraft, Test Sigma
- **Frameworks:** Page Object Model (POM), TestNG, Maven
- **CI/CD:** Git, GitHub, Jenkins (basic)
- **Databases:** SQL, MongoDB
- **Platforms:** Windows, Android, iOS (Real device & Emulator Testing), Chrome, Edge
- **Programming & Query Languages:** Java, SQL, Gherkin, Cycle script
- **Cloud Testing Tools :** Browser Stack (basic), CIMAR

EXPERIENCE

Delaplex Ltd. — QA Specialist

February 2023 - Present

Project 1: Safety Procurement & Real Estate - Web Applications

- Tested safety glasses procurement workflows using **JIRA** and **SQL** for functional and UI validation.
- Designed and executed web test cases ensuring compliance and order accuracy.
- Performed integration and regression testing on EEL's leasing and tenant modules using **Selenium (Java)**.
- Logged defects, maintained test documents, and supported agile releases.

Project 2: Custody – PMS Healthcare Web Application (NHS Integrated)

- Automated smoke, regression, and sanity tests using Cycle.
- Validated data transmission workflows between CIMAR and NHS systems.
- Executed API test cases for DOCMAN Connect ensuring secure GP data sharing.
- Conducted RCA on high-priority bugs and maintained 98% automation pass rate.
- Participated actively in Agile ceremonies and sprint planning.

Project 3: E-Learning Mobile Application (EdTech + Investing)

- Performed UI/UX testing and cross-platform regression for Android and iOS.
- Conducted REST API validation for real-time data sync.
- Logged, tracked, and managed defects in JIRA; ensured 100% QA sign-off on releases.
- Collaborated on chatbot feature and learner portfolio module.

Project 4: Supply Chain Planning & Optimization (SCPO) & Workforce Management (WFM)

- Validated SQL queries and backend workflows for workforce optimization and demand/supply planning.
- Conducted API and UI testing for resource allocation modules.
- Worked closely with operations to align QA coverage with business rules.
