About Me

Looking for a challenging career in an organization which give me a scope to update Knowledge in every step. Have 2.7 years hands on experience in Manual, Automation Testing that includes Functional, Non Functional, Rest assured, Typescript, integration testing ,Globalization, UI Testing, API Testing using POSTMAN, SDET ,CICD ,Webservice Testing using SOAPUI Automation Testing (Selenium Webdriver with JAVA).

Education

Bachelor of Engineering
University of Pune
2018 – 2021

Diploma in Engineering
MSBTE,Mumbai
2015 – 2018

Skills

- Automation Testing
- Manual Testing
- SDLC and STLC
- Selenium web driver
- Core Java
- Agile Methodology
- Page Object Model
- Jenkin (CI/CD)

Experience

Synechon Technologies

2022 – Present

Quality Analyst

Understood requirements, wrote test cases, and created automated scripts with Selenium, Java, and TestNG. Conducted API tests using Postman and executed both manual and automated tests for quality assurance. Tracked issues in Jira, performed regression testing, and shared reports with stakeholders. Worked closely with teams, used the Page Object Model (POM) for efficient test design, and set up CI/CD processes with Jenkins.

Professional Summary

- Very Good understanding of Software Development Life Cycle (SDLC).
- Good knowledge in Software Testing Life Cycle (STLC).
- Knowledge in Testing Methodology, agile model.
- Good understanding in JAVA, OOPS Concept , Collection, Arrays and String Class.
- I have knowledge in Data Driven Framework and Also cucumber Framework Executed test scripts on IE, Firefox and Google chrome.
- Experience in identifying web elements using Xpath, Dynamic Xpath Knowledge of handling Synchronization.
- Knowledge of handling Popups and List Box and Dropdown box.
- Experience in writing manual test cases and execution. Experience TestNG, Annotations and keywords.
- Experience in designing of POM (Page Object Model) classes.
- Familiar with use of MAVEN, Git hub, Jenkins Expertise in Defect Life Cycle / Bug Life Cycle.
- Good knowledge in Re-testing and defects fixed by developer. Involved in Web service testing using SOAP UI.
- Good Experience in Web Service Testing with the help of SOAP UI Tool.
- Good understanding of database concepts Involve in Test-plan, Test scenario Test strategy review Participate in the defect triage call, use the existing Tool & built the new Test script Hands-on API testing with Postman.
- Should be having a good Analytical Skill.
- Performed Automation testing using Selenium on Web based (Browser) application.

- Data Driven Framework
- Cucumber
- TestNG
- MySQL
- API Testing
- Maven
- Rest assured
- BDD
- Black Box Testing
- POSTMAN
- Jira
