Work Experience

Bajaj Finance Ltd. [Web Author]
[November 2023-Present]

- **Creating and Updating Web Pages:** Built and updated web pages from scratch based on client needs, making sure everything works as intended.
 - **Using Adobe Experience Manager (AEM):** Used AEM to manage and organize website content, making it easier to handle marketing materials and other assets.
 - **SEO Tagging:** Added and managed tags to help improve search engine rankings and make sure pages are easily found online.
 - **Handling Digital Assets:** Uploaded and managed media files using an external Digital Asset Management (DAM) system.
 - **Following Naming Conventions:** Consistently used the correct naming systems for new pages, images, and tags to keep everything organized.
 - **Tracking Tasks with Azure Boards:** Used Azure Boards to track and manage project tasks and ensure everything is completed on time.
 - **Applying Basic SEO:** Followed basic SEO rules to make sure pages are optimized for search engines and attract more visitors.
 - **Using Templates for Page Creation:** Created pages using different templates based on what the page needed.
 - **Switching Templates:** Moved pages from one template to another, keeping the design and functionality consistent.
