Career Objectives:

Motivated and detail-oriented iOS developer with [2 years] of experience in designing, developing, and maintaining high-quality mobile applications for iOS devices. Proficient in Swift and Cocoa touch, I have a strong foundation in software engineering principles and a passion for creating intuitive and visually appealing user experiences.

Technical Skills:

Programming Languages: OOPs Concepts, Swift ,Storyboard, Cocoa touch, Pods installation, Version Control Systems, MVVM Architecture,RESTful APIs, JSON, Firebase (Authentication, Firestore, Cloud Messaging, Analytics), Push Notifications, Postman, Chat Feature Implementation, Third-Party Integration Libraries, Third-Party API Integration.

Professional Experience:

iOS Developer

Inmortal Technologies Pvt. Ltd. | Sept 2023 – Present

- Design, develop, test, and deploy iOS applications using programming languages such as Swift and development frameworks like UIKit.
 - Implement new features and functionalities based on project requirements, UI/UX designs, and user stories, ensuring high- quality code.
 - Identify, troubleshoot, and resolve bugs, performance issues, and compatibility issues across different iOS devices and OS versions. Maintain and update existing applications as needed.
 - Integrate with backend services, RESTful APIs, third-party libraries, and SDKs to access data, perform network operations, and leverage additional functionalities within iOS applications.
-

Projects:

- **Klim8 Application**
 - Klim8 is an environment-focused application that encourages users to take part in eco-friendly activities. The app includes modules like *Deeds* and *Challenges*, where users participate by answering sustainability-related questions and completing tasks. Successful participation earns reward points, promoting user engagement and awareness about climate action.
 - **USGI(universal sompo general insurance pulz application)**
 - The USGI Pulz application is designed for managing general insurance services provided by Universal Sompo. The app allows users to explore and manage various insurance categories, including Health, Motor, Two-Wheeler, and Four-Wheeler. It offers seamless policy browsing, buying, and renewal options.
 - **MBAGuru Application**
 - MBAGuru is a comprehensive education platform for students preparing for the CAT (Common Admission Test). The iOS version of the app provides an English-language interface and includes features for attending live classes, accessing subject-wise material, and tracking academic progress.
-

Education:***Bachelor's in Computer***

Institute of Management and Research

2023 | 61%

- **Class XII**
Seth Mukand Lal Inter Collage
2019 | 69.2%
 - **Class X**
Siddartha High School
2017 | 65%
-

Other Skills:

- Fast Learner, Adaptability to New Technologies
 - Strong Problem-Solving & Debugging Skills
 - Languages: Hindi, English
 - Team Collaboration & Communication
-

Personal Info:

- **Date of Birth** : 17-07-2000
 - **Place of Birth** : Ghaziabad
 - **Nationality** : Indian
 - **Driving Licence**: A
-

Hobbies:

- Photography
- Travelling
- Dancing
